The competition is going really well with hundreds of entries. Riders of all equine disciplines are keen to win OxyShot for a season. 50% of the entries are from Dressage riders. Dan Sherriff, International Dressage Rider and Trainer says that "OxyShot vastly improves co-operation". Contact Dan on [www.hackup.co.uk](http://www.hackup.co.uk) for his tips on how to get a winning combination using OxyShot.

## OxyShot keeps the presence and the sparkle

Mark Reeves and Head Buyer Hannah Cohen decided to work with Equine OxyShot when they saw the strength of campaign in the Horse and Hound. "It is not often you have a new product launch that is so professional with a product that is so effective, a real innovation. I use OxyShot on my show horses and have witnessed the improved calmness and concentration without the lack of sparkle or presence that I feared I might lose."

Sales of OxyShot are strong in store, online as well as through our mail order. All stores have the competition running or enter online. This is a product that you have to try to believe.

## OxyShot keeping you safe

Oxyshot is fast becoming a grooming box 'must have' but some amazing stories are coming through to us. One lady broke down on her way from a show when she used OxyShot. She then knew how OxyShot would calm her horse during the four hour wait for the breakdown team. The she had to transfer her horse to a new wagon, on a motorway to get home, without OxyShot she does not know how she would of done it so safely.

## OxyShot helping you enjoy your horse

I wrote several weeks ago as I had tried OxyShot for the first time and was amazed by the results. I wanted to give you a quick update. I used OxyShot for the first time in competition this weekend, at Mattingley Horse Trials. It was brilliant!! In the dressage Tia is usually consistent but on Sunday got her best ever mark of 27!! She then carried on to go clear show jumping and cross country, I was completely thrilled! Tia remained calm and focused all day, despite the very bright and spooky show jumping ring and interesting cross country jumps. I have been recommending OxyShot to everyone I know and people are amazed that something has finally worked on my crazy horse!

Laura Trotter

*"A fantastic new innovation, a shot of OxyShot gives you a happy calm show horse within minutes. I use it and so do many professional and amateur show riders. It works in seconds and lasts for hours. Available from all Derby House stores, mail order and online. OxyShot is this seasons 'must have calmer'."*

From  
£2.20  
per shot

### Equine Oxyshot Refill Bottles
