Highest veterinary grade pure ingredients - tried and tested by leading professionals and available to you at the Best Prices

"It's so important to feel that you're doing everything possible to promote freedom for maximum movement when competing at any level. Hack Up Glucosamine HCL gives me total peace of mind when encouraging expression and elevation so I can produce striking performances without risking injury."
Dan Sherriff
 Professional Dressage

"One of my Shearwater horses was prescribed pure Glucosamine HCL after an operation in a Newmarket vet practice. Within a few weeks he was right as rain and I wanted to keep him on it. Hack Up GLHCL is a 'like for like' product but so much cheaper, so I now have my horses on that."

Sam Jennings
 Professional Eventer

"Like many horse owners, I feed pure Glucosamine HCL as most vets recommend it over and above heavily marketed brands. Hack Up GLHCL is sourced from the same location as that prescribed by vets in my area and is at least 30% cheaper, so I use it on my horses now and advise my clients to do the same."

John Adams
 Top Showjumping Trainer

"I buy 4kg of Hack Up GLHCL on a monthly basis. Flat horses need something to reduce the daily inflammation caused by concussion especially as my horses in training are often still growing and the joints are still developing. The economic climate makes this product a 'must have' as it is so much more affordable than other like for like products."

Willie Musson
 Racing Trainer

Glucosamine HCL - For Joints -

Glucosamine is one of the major building blocks utilised in the body's synthesis of lubricants and shock absorbing mechanisms necessary to maintain and restore healthy joint performance. Vets prescribe this exact product, labelled with their own labels, for horses with joint problems.

500g.....	£24.99	1kg.....	£42.99
2kg.....	£79.99	4kg.....	£159.99

Bee Gee Blend - For Joints -

Made up of a blend of the same Glucosamine HCL as above and Boswellia (a derivative of frankincense). **Boswellia** has potent analgesic and anti-inflammatory effects that can reduce the pains and inflammation of the joint. **Sarah Burton, Head Instructor of the Newmarket and Thurlow PC** says, "I've been using Bee Gee Blend for years as it has encouraged the mobility of my three ageing ponies more effectively than any other product I've ever tried. This product is ideal for ponies showing 'wear and tear' and has the power to add years to their competitive lives."

500g.....	£24.99	1kg.....	£42.99
2kg.....	£79.99	4kg.....	£159.99

Premium MSM - For Injuries -

Taken Internally, MSM is extremely beneficial to the body as sulphur is required for the creation of new cells including connective tissue. Sulphur aids the repair of damaged tissue and can be used for a multitude of reasons, particularly following injuries to joints, tendons, muscles and ligaments and as a nutritional supplement..
